Agenda

Welcome: Glenn Wright

Approve minutes: Bob Jackman motioned, Sandy 2nd, All voted in favor.

Review Updated Expenditure Plan:

- Jason: Ongoing PD added some.
- Guided Reading upped a bit.
- Instruction Technology has about 10k more.
- Double Dosing added a bunch more.
- iPad lab arrived

Also, if we spend more in one area and spend less in another, it is fine.

Training Aides:

Glenn Wright - Proposal - Should we allocate some money to train the aides to make them more effective.

Becky Layne likes the idea. Talk more about when the training would be done.

Double Dosing training:

- Jason - Double Dosing training? One time training, or ongoing.
I think both.
- Double dosing would be easy to facilitate.
- Jason – Money can come out of the aide budget we already have since we don't always use it all.

Move to allow teachers to use some of the money allocated for Aides for training- Bob Jackman.

Becky Layne seconds.

Vote - All in favor.

- Jason - Tell teachers they have 2-4 hours per month that they can use with their aides for training.

- Jason - FYI - If a team doesn't want a Friday for double dosing, they can use that on another day to use in a similar way.
 - This just gives the teachers more flexibility on using resources in a way that is helpful to them.
-

Letters to Legislators:

- Same as before, just changed the dates:
Move to keep the same with changed dates- Bob Jackman.
